SHOW OVERVIEW

THE MOST INTERNATIONAL WATER INDUSTRY EXHIBITION IN VIETNAM

VIETWATER successfully organized two editions in Hanoi and Ho Chi Minh last July and November 2019, with over 4,500 exhibiting personnel and 15,000 highly-targeted trade visitors including international delegates from Cambodia, Myanmar, Malaysia, Korea, Taiwan, and more.

After more than 10 years serving the water industry in Vietnam, VIETWATER has proven its position as the connecting bridge among water community globally. Moreover, the show has committed to providing an international sourcing ground for cutting-edge equipment, technologies as well as offering a series of educational conference program.

Of exhibitors achieved the objective of "find new customers"

EXHIBITOR'S TESTIMONIALS

"This is our 8th time exhibiting at VIETWATER and we are very happy to participate in this water event in Vietnam. At VIETWATER we are able to meet our existing customers as well as finding new business opportunities."

Mr. Timmy Phan, Deputy Director
HCP PUMP MANUFACTURER, VWW19's exhibitor

I find this show very well attended and there is a lot of high level companies here from all over the world with really innovative technologies. I really feel that the whole movement towards flood mitigation and urban planning for the future is very progressive and necessary here in Vietnam. This is because the increase in climate urgency especially in country like Vietnam, such planning and mitigation plan is important, and event such as VIETWATER with conferences that focuses on this topic will further help in tackling this issue.

Ms. Karolina Peret, International Manager
BRITISH WATER, VWW19's exhibitor

"Based on positive feedbacks that we received from the previous editions, we decided to join this year's event in Hanoi. After 2 show days, we have gained a lot of good results. Besides the existing customers, we can also meet some other kinds of customers such as investors about infrastructure, customers who are working in industrial majors and other applications. We see VIETWATER HANOI is an enjoyable event, and hope this exhibition will be continually held in both Hanoi and Ho Chi Minh City."

Mr. Vo Duy Quy – Vice General Director
VUCICO VIETNAM, VVVH19's exhibitor

"Visitors here are really crowded and they are also very concern about our latest technologies and products. I think this event should be annually organized since the technologies are changing every day."

Mr. Nguyen Quoc Phuong – Director
THANG LONG P&T INTERNATIONAL JSC, VVVH19's exhibitor

Testimonials

"We used to visit Vietwater in Ho Chi Minh City many times. The show in Hanoi this year was impressive with the well-decorated booths and diversity of showcased products that can be applied to manufacturing process. We believe the show will be bigger and bigger years after years and hope to see you next editions."

Mr. Doan Tong Tung - Marketing Manager
Asia Machine Electrical Equipment JSC, VVW19's visitor

"From my previous visit I have seen significant growth and improvements in the event this year. VIETWATER is the hub and meeting place of the best water players from the industry where they showcase the latest product, technologies and solutions for all water and wastewater needs. This is the main reason why we visit VIETWATER year after year."

Mr. Edgar Lopez - Vice President - National
Philippines Water Works Association (PWWA), VVW19's visitor

EVENT HIGHLIGHTS

Opening Ceremony

The Opening Ceremony and VIP Tour in both Hanoi and Ho Chi Minh editions were attended by the VIP guests from Vietnamese ministries and associations as well as representatives of international group pavilions and ambassadors.

International Conferences
