BUYER TESTIMONIALS

Company: Keko Couture – United States

Name: Teresa Barner

This is my first global sourcing convention exhibition I've been to. In the current environment in the United States, Vietnam is a very attractive sourcing location. We found a lot of great products here that have met our needs, but more so, we found a lot of great information to help us make connections here in the Vietnam manufacturing arena.

Company: Cellularwerx LLC – United States

Name: Janice Swift

This is my first time in Vietnam. I came to Vietnam because it is the most convenient for me at the moment. I'm just looking to source some products for my business. I'm mainly looking for electronic products – I currently sell cellphones online. I found some products that are unique. I would say there's a good mix of products here. I will say that everyone is very inviting, resourceful, and there's a lot of creativity.

Company: Skyline Port – Vietnam

Name: Lien Tran

I was looking for some products based on our needs and visited a few exhibition booths. I also collected contact information to follow up with businesses that match our product requirements. I visited booths featuring environmentally friendly products, including food items, packaging, boxes, and straws. I came across an Indian company that specializes in eco-friendly bags made from sustainable materials. I believe I have found potential partners that I could work with in the future.

Company: Mipbrands INC – Canada

Name: Liaquat Shaikh

There are a lot of manufacturers with the technology, capacity, and resources – a lot of factors that meet the criteria I'm looking for, such as certifications and standards. We're talking with a lot of manufacturers here. It's hard to say there's any difference compared to good international quality. I visited a couple of stores that make garments – very good quality, very good products.

EXHIBITOR TESTIMONIALS

Company: JF Winfone Vietnam Co., LTD – Vietnam

Name: Cai Shiwen

Today we met several customers from the United States, and they already decided to place orders with us. Some have even confirmed they will pay the molding cost. The Global Sourcing Fair is great. We've been to various kinds of exhibitions in Southeast Asia, I think this could be in the top three. It's very active, with many customers, buyers, distributors, logistics providers – different types of people coming to this exhibition.

Company: Sewha Co. LTD – South Korea

Name: Hailey Ahn

We chose Vietnam because we heard it's a potential market with a growing economy, so we wanted to introduce our products here. There are lots of buyers here – from India, Indonesia, the USA, and more – which was a big surprise to me because I didn't expect to meet so many buyers, especially since this is our first time in Vietnam. We are very satisfied.

Company: Kospet – China

Name: Henry

We're showcasing our smartwatches, which are manufactured in China and already available in the U.S., Central America, Europe, and several Asian countries. Our goal for this exhibition is to increase brand awareness for KOSPET in Vietnam. Some international buyers did attend, and we worked with them to explore market expansion opportunities. As for the quality of the buyers – they exceeded my expectations.

Company: Ballyfabs International Limited – India

Name: Sandeep Jain

We are from the factory, we make the yarn, the fabric, and the bags. We export these products globally, worldwide. We are looking for super-market buyers, retail companies, promotion companies. This is the first time we exhibited here, this is the second day, we have very good response. The Global Sourcing Fair, we are doing it for the first time, we have good buyers and good orders with us. Most of the buyers came here were promotional companies buyers,
