The exhibition series convened a large-scale international platform showcasing the latest technologies and solutions in Electrical Technology, Renewable Energy, Energy Storage, HVAC, Refrigeration, and Smart Building. With leading domestic and international enterprises participating, the event spotlighted innovations shaping the future of Vietnam's industrial and energy sectors.

Beyond a technology showcase, it operated as a comprehensive industry forum. Attendees accessed emerging trends, met reputable experts and suppliers, expanded networks, and exchanged practical insights. The event also created space to address market challenges and opportunities, fostering collaboration toward a greener, smarter, more sustainable Energy and HVACR future in Vietnam.

Notably in 2025, we are honored to partner with the Vietnam Supporting Industries Fair (VSIF). When Vietnam Energy Week, HVACR Vietnam, and VSIF were co-located at SECC from 5-7 November 2025, the combined platform became more than three concurrent exhibitions. It served as a high-efficiency marketplace for convergence, technology transfer, and cross-sector collaboration between the energy value chain and supporting industries.

## PRE-SHOW ACTIVITY INDUSTRY CONNECT 2025 14/8/2025 | BCEC

Industry Connect 2025 is a key industry event in the Energy – HVACR – Water sectors, bringing together leading enterprises and experts to share emerging trends, showcase breakthrough technologies, and foster meaningful collaboration. Featuring a diverse program that includes sustainable solution showcases, in-depth technical conferences, and tailored 1:1 business matching sessions, the event offers a comprehensive perspective on innovation and growth potential as Vietnam accelerates its energy transition and moves toward its Net Zero 2050 goals. Industry Connect creates a strategic platform for businesses to meet investors, contractors, and industry leaders, explore operational optimization solutions, and strengthen their path toward sustainable development.

## GREEN TRANSFORMATION IN WATER, ENERGY, HVACR INDUSTRY

# EXHIBITOR Review

## MR. LE HOAI NAM

Chief Business Officer  
Viettel IDC

I've noticed that this year's exhibition features a lot of new innovations. First, many exhibitors have participated, bringing a wide range of truly smart and environmentally friendly products. In addition, the exhibition space is well-organized and visually impressive, showcasing modern design and the latest technological achievements.

## MR. PHAT NGUYEN

Head of Legal, Compliance and  
Government Affairs  
ASIA CLEAN CAPITAL  
VIETNAM CO., LTD

We are particularly impressed to see the participation of a high-level delegation from the Vietnamese Government, including representatives from the Electricity Authority of Vietnam. This reinforces our belief that this event is not only one of Vietnam's most significant energy gatherings but also a landmark occasion for the entire region.

## MR. RICH STEVENSON

President  
BAPI

We are very happy with this exhibition. We are very busy, lots of traffic, good qualified leads so we are very happy to be here and love the support.

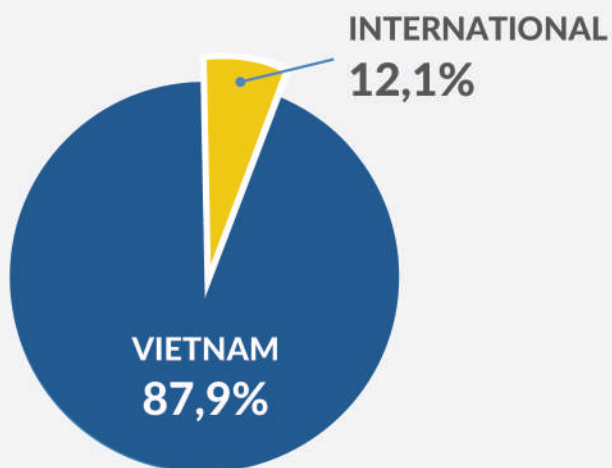

## MS. JENNIFER LEE

Key Account Manager  
HAILEI

It is good and a beginning of solar system in Vietnam. I think this is really big market in the future. Though this is our first time we attend this exhibition, but I think we will attend again next year.

## MS. TRANG ĐO

Specialist  
SAVINA Co.,Ltd

*I've had the opportunity to meet and connect with many suppliers whose offerings closely match our current needs. That's why I truly appreciate this exhibition.*

*I've received tremendous support from the Organizer in connecting with the right suppliers. I sincerely appreciate the organizer for creating such an effective Business Matching program for our company.*

## MR. CAO VAN TRUNG

Engineer  
PROSPER Technology Engineering Co.,Ltd

*I've been attending this exhibition for the past four years. In fact, last year our company also had a booth and showcased our products,*

*We'll definitely continue to participate in the coming years. Since our company specializes in equipment, taking part in this exhibition annually is truly essential for us.*
